## Retinal Exam

**VISUAL EYES**  
MEMBER *VISION SOURCE* NETWORK

Visual Eyes offers a state-of-the-art digital scanning technology that allows us to view the inside of your eye without the use of dilation drops. The OPTOMAP allows our doctors to evaluate your retina for problems such as Macular Degeneration, Retinal Holes, Retinal Detachments, Hypersensitive/Diabetic Retinopathy and much more. The scanning system is completely safe for children and adults. It allows you the opportunity to see inside of your eyes just as the doctor sees it!

We recommend that all patients have a thorough examination of their retina each year. The OPTOMAP scan is \$39 and provides you with immediate results. In most cases, this scan is not covered by insurance. Dilation may still be required in some cases.

### With Dilation vs. Without Dilation

- Blurred near vision for up to 6 Hours
- Light sensitivity for up to 6 Hours
- Longer office visit to wait for drops to take effect

- No blurry vision
- No light sensitivity
- Scan takes less than 2 minutes.
- Digital Scan can be reviewed/compared year after year

Yes, I would to have the OPTOMAP scan

No, I would not like to have the OPTOMAP scan

I would like to have all three tests done for \$79.00 (\$20.00 savings)
